

Century 21

USA Property

“Century 21 has been the best Company I have ever dealt with ”

I Keep advising and doing my very best to inform investors all the time. My efforts are still being ignored and sadly investors are finding out the hard way. No matter how I repeat and produce fact after fact I have still to sell a single property to any investor! My experience has so far only helped me to save on every deal I have closed on for my personal investment. We will continue to remain licensed and the knowledge will it is hoped be used by investors in the very near future. The companies in the USA and Canada vary a lot and they all make some great claims. After being Involved with the majority of them I have finally after 10 years left my license status with a company called century21. The agents were most helpful and assisted me with no

obligation whatsoever. They have keep me informed and updated which being based in the UK is essential. During my various USA trips I am welcomed at every office and every office visited so far has been very enthusiastic. The other companies that I have been with were only Interested in taking my money for very little given back to me. I have put a lot of work into my license status and its a pleasure to work with people that understand and appreciate everything that I have been trying to do. It is no accident that Century21 is now starting to grow here in the UK and that if the UK offices have the same outlook as their USA counterparts then I predict a lot of success for brand Century21.

This is the 2nd PDF magazine.
This PDF magazine will evolve into
an online mag to start with and will
for the first few issues be made up
of just a few pages. It is hoped
that others will be contributing
ideas articles and pictures to our
online mag and that eventually
the online issue will one day be on
the top shelf of the newsagents.
Thank you for your time and I look
forward to working with as many
positive people as possible to see
this online pdf mag develop.
As always the very best regards

Since 2003 I have been following property in Florida and especially the short term vacation villas. I can honestly say that the main areas are moving again and property is doing well. I use the first property I ever saw during 2003 close to h27 to estimate what is happening to the property market. During 2007 the property I looked at during 2003 valued at \$112'000 was sold for only \$62000 now in the same neighbourhood is a property priced at \$125000! Yes it appears the area around kissimmee is coming back and once again holiday villas are being built . Hurry before the prices go up even more snap up a bargain quick.
